Viewing Comments from your Professor in TURNITIN

After you submit your paper through Moodle/Turnitin, your professor will likely leave you some feedback to explain why you got the grade you earned. It’s important to consult this feedback before the next assignment so you can improve in trouble areas as you continue through the course.

1. Click on the Turnitin Assignment to access the submission area.

2. Click on the “My Submissions” tab

3. To view professor comments, click on the blue pencil icon (‘Grade’ column) to open a new window that contains your paper and comments from your professor.

Note: The ‘Comment’ column is provided for YOU as the student to communicate feedback to your professor. You may see comments within in the paper—roll over a semi-transparent icon or abbreviation to see the full comment. Additionally, there is an overall comment section to the right of your paper content. If you see a play button, your professor may have used audio comments.
